The Art Books of Henri Matisse

V The Chester Beatty Library is one of **Dublin's** most exquisite museums, and this summer an exhibition of art books by Henri Matisse offers just one more reason to visit. Loaned by Bank of America Merrill Lynch, it's the first time the books have gone on public display in Europe. The exhibition also includes text and illustrations from the book *Jazz*, as well as a copy of Matisse's illustrated version of *James Joyce's Ulysses*, both of which are from the Library's own collection.
